

We are looking for technology enthusiasts to join our team in Timisoara.

Cognizant Softvision is a fast growing global digital development company. We help global companies in the areas of enterprise application development and integration, automation and machine learning, agile transformation, big data and analytics, full stack web, mobile, IoT, design and UX, QA and testing, infrastructure, and digital commerce.

We are looking for exceptional JavaScript Trainees to work with our cross-functional team, and join our world-class community of talented experts.

If you are a technology enthusiast with a clear passion for programming, finished or ongoing University studies, eager to master cutting edge JavaScript frameworks and create cool web apps, apply now to our Web Pre-employment Training. Application deadline: 23 June 20, 2019

**Apply at: [training@softvision.ro](mailto:training@softvision.ro)**

For this position you should be able to check the following:

Basic experience and/or interest in working with web technologies

Basic experience in HTML, CSS, JavaScript/jQuery

Good technical fundamental knowledge of OOP principles

Basic understanding of web paradigms, tools and protocols

Analytical thinking and proactive attitude

Very good communication in English (both written and spoken)

A day in the life of a JavaScript Trainee:

A lot of coding – discovering the mysteries of programming with our best Senior Programmers

A lot of learning - taking part in theoretical and practical training sessions

A lot of collaboration – you will be part of a big team and with us there is no “I” in the team

A lot of fun - we believe work can be fun if you’re passionate about what you do

Interested in this training?
