

Offer for 3 * Software Mobile Innovation Student – Trend Antenna Timisoara - TSR

Description

· We're looking for creative, inventive and passionate students with good experience in various software technologies, who wants that the result of their work to stand out from the crowd and also wants the comfort and empowerment offered by a company like Continental.

· You will work in a highly skilled team of students that are developing an innovative multi-platform app (AWS powered) used by people working in Continental Timisoara on their day to day travel to and from work, that could reduce traffic, pollution, needed parking space and could become a future smart-mobility service offered by Continental to the entire world.

The main professional benefits for you are:

- Tackle real tech & innovation challenges;
- Work with cutting edge technologies;
- Freedom to act, Start-Up similar work-style;
- Contribute to future digital services provided by Continental in the field of smart-mobility;
- Join a highly motivated and creative team of innovation students.

Qualifications

First you need to be an enthusiastic student who thrives for more than the basic academic life. We are looking for people which are full of ideas, who are eager to learn more and face the different challenges in the future projects.

Second important requirement is to be creative, with a logical and outside the box mindset, we want to find those solutions, which might seem absurd at start, but could actually work in the end.

The third important requirement is to have software knowledge and experiences in different software technologies in order to be able to put your innovative ideas into solutions:

- Object Oriented Programming;
- Client-Server applications;
- Software security concepts;

- PHP and at least one of the following: MySQL / MariaDB / Oracle / Firebase;
- At least one of the following: React Native / Android Studio / XCode / Ionic / React / Angular 2+;
- At least one of the following: JavaScript / Java / Kotlin / Swift.

Multumesc,
Carla DRODTLOFF
